

Our Creative Curriculum

At Sandringham our curriculum is rich, diverse and inviting for all. We aim to excite and inspire our young children so that they become enthusiastic learners for life. Our school core values are integral for developing confident, inquisitive and well-rounded learners.

The Learning Environment

Our safe and nurturing learning environment encourages the development of curiosity, independence and resilience. Children's personal life experiences and interests are valued and used as the starting point for all learning. We recognise, celebrate and reflect diversity of our community by promoting equal opportunities for all.

"I feel like a star at this school because everyone is happy and the learning is fun".

Year 1 child

"Sandringham is a warm and nurturing environment for children to blossom and grow".

Parent

"Sandringham is a place where children love coming to school, they feel supported in their learning and they feel safe and listened to".

Ofsted 2018

Themes

Our creative curriculum is topic based making learning engaging, exciting and memorable. Each topic is designed to have a 'wow starter' and a 'fantastic finish' to excitement, enthusiasm and engagement throughout. Children's skills and knowledge are embedded from the Early Years and throughout Key Stage 1.

Assessment

At Sandringham both adults and children have high aspirations for learning. The Trust assessment system is rigorous and ensures that learning is based on children's individual needs, celebrating every achievement along the learning journey. We encourage children to continually reflect on their progress through learning conversations and regular feedback. As the children's individual independence develops they become able to identify and achieve their own next steps.
