

Sandringham Infant and Nursery Academy Provision Map 2023-24

Through this Provision Map we have outlined a range of support that some of the children in our academy may require during the school year, although this may be adjusted to cater for changing needs and it is provided subject to budgetary constraints. The Provision Map is split into the four categories of need as outlined in the Code of Practice 2014 ([Communication & Interaction](#), [Cognition & Learning](#), [Social, Emotional & Mental Health](#), [Sensory & Physical](#)). It follows a graduated response approach, in line with the Surrey Profile of Need.

Universal

Inclusive Quality First Teaching for **all** children

Universal describes high-quality inclusive teaching which considers the learning needs of all the children in the classroom. This includes providing differentiated learning and creating an effective, inclusive learning environment. This is the first step in responding to children who have or may have SEND.

Targeted provision describes specific, additional and time-banded interventions provided for some children who need help to accelerate their progress to enable them to work at or above age-related expectations. This support/intervention is targeted to children who are not making the expected progress through the universal provision. Some children's needs may also be supported through involvement of external agencies. Children may be on the SEND Register at SEND Support level.

Targeted provision

Additional support/interventions to enable children to 'catch-up' and reach age related expectations

Personalised provision

Additional and highly personalised provision to enable access to the curriculum

Personalised provision describes targeted provision that is needed for a few children where it is necessary to provide highly tailored intervention to accelerate progress and/or enable children to achieve their potential. This may include one-to-one or specialist interventions. Children will be on the SEND Register at either SEND Support level or may require statutory assessment/have an EHCP.

This version of the Provision Map is correct as from September 2023 and may be subject to change. It is currently being reviewed alongside Surrey's Ordinarily Available provision <https://www.surreylocaloffer.org.uk/practitioners/resources/ordinarily-available-provision>

Communication & Interaction

Universal High-Quality Teaching for ALL children	Targeted Provision Catch up/additional provision for some children	Personalised Provision High level of personalised provision for few children
Additional processing time Afterschool clubs Breakfast club available each morning providing extended social opportunities (at a low cost) Building Learning Power (BLP) ethos across the school Computing equipment (laptops, voice recorders etc) Differentiated planning Drama activities Embedded Values education Group work Key words/word banks Modelled interaction Modelled speech/language PSHCE lessons Child Governors Sequencing activities Simplified language Structured school and class routines Talk partners Targeted questioning Transition support from EY-KS1, KS1-2 Visual class timetable/aids in classrooms Whole class circle time	ELKLAN (Speech & language support) Emotional Literacy Support Listening skills groups Nurture groups Personalised visual timetable/resources Pre-teaching Social skills group Talk Boost Time to talk Widgit	Early Help assessment Makaton Outreach support e.g. Freemantles, Speech and Language Personalised individual timetables/resources Regular speech and language therapy Specialist ICT equipment Structured speech and language programmes Targeted intervention and regular consultations with outside agencies including <ul style="list-style-type: none"> - Educational Psychologist (EP), - Occupational Therapy - Specialist Teachers for Inclusive Practice (STIPS) - Speech and Language Therapy (SALT)

Cognition & Learning
