

# The Arrival of an Enchanted Door!

Today at Sandringham there has been a huge buzz and excitement for all children by discovering "an Enchanted Door" has arrived on our playground over the weekend!

All children have seen the door and inspected the surrounding area for clues before coming back to class to share ideas about where it might have come from, how it got here and more importantly what could be on the other side should we be able to go through it!

The door will inspire a week of creative, imaginative and wonderful writing for all children, so we hope continued conversation at home about the door and how it develops over the week will continue to keep your child(ren) excited!
